Address: P.O Box 48400, Kencom Building, 00100, Nairobi, Kenya (Work)

ABOUT ME

Experienced Backend Engineer with over 8 years of hands-on expertise in designing and implementing scalable, secure, and robust financial solutions and APIs. Proven track record in microservices architecture, CI/CD pipelines, T24 integrations, and enterprise-grade system optimisation. Adept at leveraging cloud platforms, middleware, and modern development tools to deliver innovative solutions, mentor teams, and drive impactful business outcomes.

WORK EXPERIENCE

KCB BANK – NAIROBI, KENYA

Business or Sector Financial and insurance activities | **Department** Technology | **Website** www.kcbgroup.com

ENTERPRISE SOLUTION ENGINEER – 03/10/2022 – CURRENT

DUTIES

- Collaborate with banking stakeholders (business units, compliance, risk, operations) to gather and analyse requirements.
- Understand banking regulations, compliance standards (e.g., AML, KYC, PCI DSS), and how they impact technical solutions.
- Architect secure, scalable enterprise banking solutions such as payment processing, loan management, or digital banking platforms.
- Provide technical expertise to product teams and business analysts on banking software capabilities and limitations.
- Develop prototypes or proof-of-concept solutions for new banking products or regulatory changes.
- Integrate banking solutions with multiple systems such as CRM, risk management, anti-fraud systems, and regulatory reporting tools.
- Deploy solutions ensuring high availability, disaster recovery, and data integrity, which are critical in banking environments.
- Work with compliance officers, security teams, and infrastructure engineers to align on solution design and deployment.
- Conduct rigorous functional, security, and performance testing to meet banking quality standards.
- Evaluate emerging technologies like blockchain, AI, and cloud banking platforms for potential adoption.

KEY ACHIEVEMENTS

- Designed and implemented financial microservices solutions that were aligned with the enterprise architecture.
- Led development of core banking transaction services for a super app, enabling internal funds transfers, EFT, SWIFT, RTGS, balance inquiry, customer/account details, reversals, and transaction status queries.
- Spearheaded the Hustler Fund project, processing over 21 million transactions and enabling Ksh 17 billion in borrowing within 3 months.
- Automated manual reversal processes, reducing TAT from 24 hours to 1 hour.
- Implemented CI/CD pipelines, enhancing deployment automation and scalability.
- Improved system monitoring by integrating ELK tools, enabling real-time visibility.
- Transitioned legacy applications to microservices, enhancing performance, security, and scalability.

APPLICATION DEVELOPER – 27/08/2018 – 16/01/2022

DUTIES

- Develop scalable, resilient and highly available software solutions
- Participating in the user requirements gathering and refinement.
- Draw the architectural designs for systems integration.

KEY ACHIEVEMENTS

- Boosted revenues through the IMT partners' integration (IMT project).
- Automated credit card booking, reducing manual workload by 90%.
- Established direct MNO integrations, broadening revenue streams and enhancing real-time settlement.
- Optimised API and microservices to enhance security, resilience and improved TPS.

MORTGAGE EZY LTD – NAIROBI, KENYA

Business or Sector Real estate activities | **Department** Technology

SENIOR SOFTWARE ENGINEER – 17/01/2022 – 02/10/2022

DUTIES

- Maintaining the GCP cloud infrastructure
- Designing and implementing software.
- Mentoring Junior Software Engineers.

KEY ACHIEVEMENTS

- Integrated a Document Management System with GCP Cloud Storage, reducing TAT for document retrieval.
- Provisioned GKE clusters and optimised CI/CD pipelines, improving release cadence and availability.
- Automated file processing for analytics, increasing operational efficiency.

 **IMPAX BUSINESS SOLUTIONS LTD** – NAIROBI, KENYA

Business or Sector Information and communication | **Department** I.T.

IT TECHNICAL CONSULTANT – 03/11/2015 – 26/08/2018

DUTIES

- Developing BI executive dashboards for financial insights
- Developing and supporting Human Capital Management systems.
- Developing the sales force automation tools.
- Handling end-user training.

KEY ACHIEVEMENTS

- Enhanced payroll systems to ensure accurate and correct processing of staff salary payments.
- Developed BI executive dashboards for financial insights, thus improving executive decision-making.
- Built and managed mobile sales automation tools, increasing field efficiency.

EDUCATION AND TRAINING

09/01/2012 – 27/11/2015 Kisumu, Kenya

BSC COMPUTER SCIENCE Maseno University

Website www.msu.ac.ke | **Field of study** Computer Science | **Final grade** Second Class Honours(Upper Division)

25/03/2011 – 22/11/2011 Kisii, Kenya

KCSE Itierio Boys High School

Field of study KCSE | **Final grade** B+

LANGUAGE SKILLS

Mother tongue(s): **ENGLISH**

SKILLS

Programming Languages & APIs

JAVA (Spring Framework, SpringBoot, REST, Hibernate, JPA, JDBC, JAX-RS, Maven, Gradle) | Java (computer programming) | Object-Oriented Programming | kotlin Programming | JSON

Databases

Oracle Relational Database | SQL Server | SQL (MSSQL, PL/SQL, MySQL) | Redis | Databases: MySQL, MariaDB, PostgreSQL, MongoDB | Flyway Database operations

Cloud Computing

Cloud&Container Platform: AWS, MS Azure, Google Cloud, Kubernetes, OpenShift, Docker, Rancher | Docker, Jenkins, Openshift, Kubernetes, Microservices architectures design

DevOps

Kubernetes, Docker-Swarm | Git, Bitbucket, Gradle, CI, Jenkins, JIRA, Docker | red hat openshift

Messaging Tools

Message Broker: APACHE KAKFA, ACTIVEMQ, RABBITMQ | Apache Kafka (Streams, Connect)

Automation & Performance

Power Apps, Power Automate, Power Flow, Power BI | Jenkins, Maven, Git, Docker | Load Testing with JMeter | ReadyAPI

Analytics & Monitoring

ELASTIC STACK (ELK) | MS Power Platform (Power Apps, Power Automate, Power BI) | Monitoring Tools (ie DataDog, ELK)
